Summary

Front-end developer with experience in building fast, scalable, and user-friendly web applications using Next.js 13. Proven ability to use Next.js's powerful features, including SSG, SSR, ISR, automatic code splitting, image optimization, API routes, and TypeScript support. Expertise in building static websites, dynamic websites, web applications, and API endpoints with Next.js 13.

Visit my portfolio to see examples of my work: <https://bushra.vercel.app/>

I am passionate about building high-quality web applications that meet the needs of my clients. I am also a strong believer in the power of Next.js to help developers build better web applications.
